Subject to the terms and conditions outlined in Annexure "C" of the Sales Contract, the developers of Cassia will provide and install Colorbond® fencing to those lots that have dwelling construction completed within the contractually agreed period after settlement. The fence will be erected as close as possible to the boundary.

Where there is a retaining wall separating two lots that have a different pad level, the retaining wall is constructed wholly within the boundary of the "higher" lot. The outer face of the retaining wall is on the boundary. The Colorbond® will be erected in the middle of the retaining wall. That is to say on the "higher" lot. Please reserve any questions you may have until such time as the fencing contractor contacts you.
